

This service is being paid for by willing subscribers. The traffic and weather reports are not even in my local area. But when I'm traveling, it's nice to have them available at all times. I'm not sure I understand the reason behind NAB's petition 04-160. A little competition is good for business and for growth!! Admit it, you would miss these reports if they were stopped! I urge you to oppose HR 4026.
